PROFESSIONAL SUMMARY

DevOps and AWS Cloud Engineer, including hands-on experience in Linux Administration, AWS Cloud, application deployment, infrastructure management, and Git-based CI/CD workflows. Skilled in Linux server administration, Bash scripting, cloud infrastructure, networking fundamentals, Docker fundamentals, and deployment automation. Experienced in provisioning AWS resources, troubleshooting Linux environments, and supporting cloud-based applications. Passionate about DevOps, Infrastructure Automation, CI/CD pipelines, Monitoring, and Cloud Engineering.

TECHNICAL SKILLS

Operating Systems: Linux (Amazon Linux, Ubuntu), Windows Server

Linux Administration: User & Group Management, File Permissions, ACL, Process Management, Cron Jobs, Shell Scripting, Package Management (YUM, RPM, APT), LVM, File System Management, System Monitoring

Cloud (AWS): EC2, IAM, S3, Route 53, VPC, Route Tables, CloudWatch, Security Groups, Load Balancer, RDS

DevOps: Git, GitHub, GitHub Actions (Basic), CI/CD Pipelines, Deployment Automation, Docker Fundamentals, Infrastructure Automation, CloudFormation (Basic), Terraform (Basic)

Networking: TCP/IP, DNS, DHCP, VPN, Subnets, CIDR

Database: MySQL

PROFESSIONAL EXPERIENCE

Associate Software Engineer – Cloud & Technical Support

Oct 2025 - May 2026

Kavya Infoweb Private limited | Nagpur, Maharashtra

- Administered **Linux Servers** including **User & Group Management**, **File Permissions**, **ACL**, **Package Management**, and **File System Administration**.
- Automated repetitive Linux administration tasks using **Bash/Shell Scripting**.
- Provisioned **AWS EC2** instances for **Application Deployment** and testing.
- Configured **IAM Users**, **IAM Roles**, **Security Groups**, **Route Tables**, and **Networking Resources**.
- Performed **Backup & Restore** operations for Linux servers.
- Scheduled automated administrative jobs using **Cron (Crontab)**.
- Assisted in **Application Deployments** and **Environment Troubleshooting**.
- Monitored server health using **AWS CloudWatch**.
- Worked with **Git** for **Version Control** and collaborative development.
- Troubleshot **Linux Servers**, **Deployment Issues**, and **Network Connectivity** problems.
- Documented **Deployment Procedures**, **Runbooks**, and **System Administration** tasks.

React Software Developer (with Cloud Exposure)

Jun 2023 - Oct 2025

SSDIT Solutions | Nashik, Maharashtra

- Developed and maintained **Web Applications** using **React.js**.
- Deployed applications on **AWS EC2** and **Amazon S3**.
- Configured **Linux Servers (Amazon Linux and Ubuntu)** for application hosting.
- Configured **Nginx** as a **Reverse Proxy** and **Web Server**.
- Used **Git** and **GitHub** for **Source Code Management**.
- Integrated **GitHub-based CI/CD Pipelines** for **Automated Deployments**.
- Collaborated with **Development** and **QA Teams** during application deployments.
- Performed **Production Support**, **Deployment Troubleshooting**, **Server Monitoring**, and issue resolution.

PROJECTS

AWS Three-Tier Infrastructure Deployment

- Designed and deployed a secure **Three-Tier Architecture** on AWS using **VPC, Public & Private Subnets, EC2, Internet Gateway, and Route Tables**.
- Configured **Security Groups, IAM, and Application Load Balancer (ALB)** to ensure secure access, traffic distribution, and high availability.
- Deployed **Amazon RDS** in a private subnet and utilized **Amazon S3** for backup and storage management.
- Performed Linux server deployment, monitoring, and troubleshooting, ensuring a secure and scalable cloud infrastructure.

React Application Deployed on Cloud

- Developed a React application and deployed it on **AWS EC2 running Amazon Linux**. Configured Nginx for hosting and integrated **GitHub-based CI/CD** for automated deployment.
- **Implemented CI/CD pipeline** for automated build, testing and development

EDUCATION

BE in Computer Science Engineering

Savitribai Phule Pune University | **CGPA 8.96**

2019 – 2022

Nashik

CERTIFICATION

AWS Certified Solutions Architect – Associate (*In Progress*)
